

PLUME ACADEMY - LEARNING OVERVIEW

Year	Year 11
Course	IMI Level 1 Award in Transport Maintenance
Specification Number/Exam Board	Qual Ref: 601/8753/0
End of course assessment and weightings	Portfolio of Evidence 80% Online Test 20%

Prior Learning

After successfully passing the ABC Level 1 Award in Automotive Studies students have the foundation knowledge and understanding to continue studying a further qualification during Year 2. This also provides opportunity to further develop literacy and numeracy and IT skills in new context

Curriculum Intent – What are the curriculum aims?

This qualification is designed to engage and motivate students who are interested in learning about the automotive retail industry, providing hands on learning. Although the course comprises both theory and practical elements the majority of the course is practical with assessment also including verbal questioning which aims to simulate a working environment. This develops a candidate's ability to verbally respond and comment about practical situations.

Curriculum Implementation – What will my child be learning?

Terms 4- 6	Health and Safety in the Workplace
	Locating, Interpreting and Using Technical Information
	Moving Loads and Vehicle Lifting
	Introduction to Mobile Automotive Repair Trades
	Routine Vehicle Maintenance Processes and Procedures

Curriculum Impact – How will progress be assessed as I learn?

Students are assessed holistically throughout the course to test acquisition of knowledge over time. The awarding body has created a set of combined assessments which the learner will undertake throughout the year for each of their selected units of study. These combined assessments are designed to ensure rigour and quality of assessment by measuring the learner's underpinning knowledge and practical ability. A portfolio of work is required to be submitted which meets the learning outcomes along with an on-line assessment which covers the mandatory aspects of the course.

Super-Curricular Opportunities – Support and Extending Learning

Useful study resources	If a student is really passionate about this subject...	As a parent/carer, I can assist my child in this subject by:
All courses resources are supplied. Follow engine repair tutorials on YouTube.	Successful students have the opportunity to further develop knowledge and understanding by specialising in part of the industry as well as seeking apprenticeship or full time employment.	Assisting them organising and prepare equipment required for the course and assist them with keeping to coursework deadlines.
